

Maths Home Learning Term 1 Choice Cards Week 6

You must complete **AT LEAST TWO** of the tasks below **THIS WEEK**.

You may choose which tasks you wish to complete from the list below. You will hand in the two tasks you have completed at the end of each week with the rest of your home learning to be marked by your teacher. Make sure you answer ALL of questions for each task (including the parts in *italics*) and include the title of the task.

*Make sure you are trying your best and **challenging yourself** with your learning!*

<p>Alphabet angles</p> <p>Investigate angles within the letters of the alphabet.</p> <p>Label them as acute (A), right (R), obtuse (O), or reflex (F).</p>	<p>Time and Data – 100 times</p> <p>What are some things you can do approximately 100 times in one minute?</p> <p>Record your tasks on a graph with the actual number completed in one minute.</p>	<p>Creating number problems</p> <p>What addition and subtraction number sentences can you create that have 587 as an answer?</p> <p><i>Create at least FIVE number sentences – challenge yourself!</i></p>
<p>Different views</p> <p>Find an unusually shaped object in or around your house and sketch the top, front and side view of it (eg a car, an unusual dish or vase, a coffee mug, your dog, a toy, etc).</p>	<p>Whole Number</p> <p>Brainstorm everything you know about 1 million.</p> <p>Optional: Use some of the facts to write an interesting story.</p>	<p>Time</p> <p>List ways you can measure a minute without a clock or timer.</p> <p><i>Order the ways from most to least effective.</i></p>
